EXECUTIVE SUMMARY

SME plays a vital role in the economic growth of Bangladesh and has significant impact in our national GDP escalation. SME generate a huge employment opportunity and increases the productive capacity which helps to achieve our social and economic objectives. But access to credit is a major problem for SME flourish in Bangladesh. BRAC Bank is the pioneer in providing the SME loan in Bangladesh and nowadays most of the commercial banks are providing SME loans and introduces SME Service Center concept. Presently BRAC bank has more than 0.15 million SME loans and covered all the upazillas. More than 90% of SME loans in BBL are providing without any collateral and most of the loans are approved in field level so it's a huge credit risk for the bank. But in BBL SME business generates more than 55% of total profit compare to other segments of BBL and the growth of the bank is remarkable. Repayment behavior of SME clients are dependent on lots of factor like loan size, exercise, interest rate, nature of business, age, education, experience, number of installment, and willingness of clients. In this report I try to find out the determinants of repayment behavior of clients through regression analysis. In regression analysis I found that there is a positive relationship between recovery arte and number of installment, if number of installment increases than recovery rate is also increases. Also there is a negative relationship between recovery rate and loan size, recovery rate is lower for bigger loans. Education has a positive impact in timely repayment though the result is not statistically significant. For better/smooth repayment and minimize the risk, BBL should increase the installments of SME loans, carefully assessing the bigger loans and also should consider the education and experience of the SME clients.

Overview on SME loan

The most valuable natural resource of Bangladesh is its people. As a nation we struggled for our independence and now the attainment of economic uplift is the main goal. Micro lenders are working here in the financial field, providing very small amount and on the other hand regular commercial banks have been providing bigger amount of loans to larger industries and trading organizations. But the small and medium entrepreneurs were overlooked. With this end in view-BRAC BANK was opened to serve these small but hard working entrepreneurs with double bottom line vision.

Key Finding by Audit

Brac Bank has 429 unit offices around Bangladesh from where they do SME business by the help of corresponding bank, because BRAC bank has not enough branches or service center in Bangladesh. For that reason they open an account on listed few banks and run their SME business well.

Listed Corresponding Bank Which Use by BRAC bank for SME business is:

- 1. Pubali Bank Limited (PBL)
- 2. Rupali Bank Limited (RBL)
- 3. Janata Bank (JB)
- 4. Agrani Bank (AB)
- 5. City Bank Limited (CBL)

6. National Credit & Commerce Bank (NCCBL)

Every transaction has done by the corresponding bank. Every single client have individual loan and link A/C no. They have taken installment from loan client and give a deposit slip (DS) to the client. Then client goes to the unit office of BRAC bank and Customer Relationship Officer (CRO) issue a money receipt (MR) against deposit slip and take a copy of money receipt and deposit slip for attaching in the client loan file.

Last three months of internship, most of the time I did pass my working hour in total 38unit office in Dhaka zone, Chittagong zone, Thakurgaon zone, and Satkhira zone as well. My role was an audit where I visited the unit office and check every loan clients file where my headache was to follow the deposit slip and money receipt and matched with Bank statement (BS) that amount which mentioned in the MR&DS. Some major findings are given below:

- (a) A/C no mismatch in bank statement: The first finding of my audit to get loan client A/C no mismatch in bank statement. It is happened in every single SME unit office. Obviously it something causes loss for banks perspective. Because in one unit office I found that for example, two clients A and B. client A give the installment of 20000tk but that particular money had written in client B's account where the situation was client B had one installment left for closing his loan account. As a result, client B's account was closed and not shown in client A's account. After that situation when the bank found the mismatch, banks couldn't sue or got client B. as a result bank have lost 20000tk.
- (b) Money receipt and Deposit slip not found: Secondly, some old loan client file had not kept properly. As a result when I went to unit office, most of the deposit slips and money receipt had missed. It causes problem for the client and CRO as well. Because without proper document loan A/C can't be closed.
- (c) Giving cheque but did not honor in bank: One loan client gave a cheque in bank for his regular installment. But the cheque was not honored at all. But in bank statement that client money had written but it was totally fake. I found this

problem when a CRO asked me that why that client loan account can't be closed? After passing 1 hour that found was recovered by me and finally i told that CRO, those installment cheque was not honor and this loan will not be closed yet this amount of money bank receive.

(d) Irresponsible CRO/ZMin few unit offices: By auditing, I got little irresponsible CRO/ZMin unit office. If i suppose to take/count moheshkhali unit office, then i can say that for ZM/CRO banks receive loss in that unit office. Because account assistant though told the CRO/ZM lots of time that bank must have loss ample of money if u give loan to that customer. But ZM/CRO can't realize his speeches. As a result i found that bank have lost 3 lakhs taka.

Conclusion:

In conclusion, last three months of internship I have passed with great pressure also encouragement for doing job in any banking organization. It was also great achievement for my life which can help into my professional life. I have learned many things which is related to SME section. Everybody was very helpful in the organization. They taught us many important things as well. Overall I have passed last three months like an executive of BRAC bank not like intern.
